SALE DATE 21ST MAY 1927 (SATURDAY).

Notification dated 1st April 1927.

Notice is hereby given that the undermentioned lands in the Koppa Taluk, Kadur District, applied for coffee cultivation, will be sold by public auction, at 11 A.M., on Saturday the 21st May 1927, at Koppa Taluk Office, before the Amildar of the Koppa Taluk, subject to the confirmation of the Assistant Commissioner of the Sub-Division.

2. The sale shall be by public auction under the usual conditions and the land shall be knocked down to the highest bidder above the upset price, namely, Rs. 10 per acre. The deposit of one-fourth of the upset price made by the applicant shall, if the land be knocked down to him at the auction, be credited towards his deposit of 25 per cent of the purchase money, and it shall be refunded to him if the land is purchased by any other person in the auction.

3. The upset price fixed as above shall include survey expenses, and the right of Government to all reserved trees except sandal, which will always be reserved absolutely by Government.

4. The highest bidder should, immediately after the close of the sale, pay a deposit of 25 per cent of the purchase money inclusive of the deposit referred to in para 2 and the remainder before sunset on the fifteenth day from the date of sale as provided for by the rules in force; in default, the land will be resold at the risk of the defaulter, who will have to make good the deficiency, if any, at the second sale, but will have no claim to the excess, if any.

OFFICE OF THE SECRETARY, MYSORE STATE LIFE INSURANCE COMMITTEE, BANGALORE.

To

The Heads of all Offices.

Circular No. 50, *dated 4th June* 1927.

It has been brought to the notice of the undersigned that in several instances, proposers for Life Insurance in the Official Branch appear before District Medical Officers for medical examination without entering clearly in the proposal form whether it is the first or further or renewed proposal and without mentioning the date of the last detailed medical examination and consequently District Medical Officers find it difficult to know whether an ordinary or a detailed examination has to be conducted in the particular case.

Heads of offices are therefore requested to see in future, that before the proposal is forwarded to District Medical Officer, all the columns provided therein are filled up properly and completely by the proposer and in particular whether the proposal is for First, Further or Renewed Insurance and when the last detailed medical examination took place. If the proposal is a renewed one, a note in red ink to that effect may be kindly made on the top of the first page of the proposal form.

District Medical Officers, in future, will refuse to examine cases in which the proposal forms are not completely and correctly filled in.

S. SHAMANNA,
Secretary.

Messrs. B. Abdul Rahiman, B. Krishnappa, S. Rama Rao, V. Subrahmanya Iyer and Pandit T. Srinivasa Raghavachar wrote letters expressing their inability to attend the meeting.

The President in his opening speech said :—

LADIES AND GENTLEMEN,—

I have much pleasure in welcoming you to another annual meeting of the Text Book Committee. Since we last met, the hand of death has snatched away from our midst one of our distinguished members, Mr. B. Venkoba Rao, who was for a long time a member of this Committee and who, in the midst of the multifarious duties of his high office, placed his great scholarship at the disposal of the Committee by serving on the Telugu Sub-Committee and actively participating in its work. I believe I shall be only voicing the sentiments of the whole Committee when I express our sincere sympathy with his family in their bereavement.

The Telugu Sub-Committee has sustained another grievous loss by its Chairman Mr. B. Krishnappa, having been compelled to proceed on leave, owing to a physical affliction in which we all deeply sympathise. I am grateful to Mr. T. S. Venkannaiya for valiantly stepping into the breach and carrying on the duties of Chairman, so that the work of this Sub-Committee has gone on uninterruptedly.

The report of the Secretary to the Committee as well as of the Chairmen of the several Sub-Committees has been printed and placed in your hands. Without anticipating the discussions that will arise out of this report, I may be permitted to draw your attention to the enormous increase in the work of reviewing of books submitted to the Committee. The number of books reviewed during the year was 712 as against 380 last year. The heaviest work, as usual, fell on the English, Kannada, and History and Geography Sub-Committees; but almost all the Sub-Committees have got through most of the work referred to them. I am deeply grateful to all the members including departmental officers and others, officers on the retired list as well as in active service, who have so ungrudingly devoted their time and energy to this important part of the work of the department of Education.

The number of books submitted for the consideration of the Sub-Committees is very large, and as pointed out in the report of the Chairman of the Urdu Sub-Committee, the books are of varying merit, and some are obviously unsuitable. This is referred to in the report of the Chairman of the History and Geography Sub-Committee also. In accordance with the suggestion of the Chairman of the English Sub-Committee, I have tentatively authorized the Chairmen of the several Sub-Committees to reject books which they find to be so obviously unsuitable as not to require to be placed before the other members. Even this procedure, I feel, throws heavy work on the Chairmen and I invite the suggestions of the Committee as to how best to relieve the Sub-Committees and the Chairmen of ineffectual labour so as to enable them to give more time for the critical examination from the point of view of suitability for educational purposes of really useful books.

During the year I have received some complaints from the general public of some of the Kannada Text books containing passages unsuitable for the use of young children; and of some Geography text books being quite out of date. Action in regard to the latter has already been taken; and as regards the former, I believe the complaint really related to text books of last year. But it shows the extent of care in editing and expurgating old texts which the parents expect of this Committee.

Another old complaint of the public is that text books are too frequently changed. At the instance of the Government the matter was carefully gone into. The proceedings of the committee and of the department do not bear out this complaint. The committee has resolved that, except in language, the same text books should be continued unchanged for at least three years. Investigation by Inspecting Officers of the Department has not brought out any cases of teachers on their own authority changing textbooks. A report to this effect was submitted to Government and I have added that in future even the language text books will not be changed (except for the final examination classes) for a period of three years. This report has been recorded by Government and published in the Gazette and I trust we have satisfied the public that we have done everything necessary to remove all room for dissatisfaction in this respect.

From the point of view of the department the complaint is just the other way,—that most of the text books which are departmental publications have been too long in use and require to be replaced by more up-to-date books or at least substantially revised. This matter was considered by a special committee that we appointed last year, and their report which reached my hands too late to be printed along with the other papers will now be placed before you. I hope that, as a result of our discussions, the way may be made clear for larger enterprise on the part of the authors and publishers in bringing out books suitable for the various standards in accordance with the prescribed syllabuses, so that a sufficient number of up-to-date and suitable text-books may be available for being approved by the committee and the department may gradually withdraw from the publication of text books, the only exception perhaps being in the case of books for the Lower Secondary and Upper Secondary Training classes and some Urdu Books, the demand for which may be too small to induce private persons to bring out and place their works on the market.

It may interest the committee to know that an enterprising publisher in Mysore has brought out a Kannada First Reader, written by an eminent Kannada Scholar, to be used as an alternative to our Balabodhe Parts I and II. The book is attractively got up and well illustrated and for a first venture of the kind is very encouraging; we want more ventures of the kind by authors and publishers both in language and non-language subjects. There is a vast field for enterprise in this direction, especially in the matter of text books in English for junior forms which are now the monopoly of outside publishing houses. In this connection, it appears to me that the resolution adopted by this committee at the last meeting that, in future, manuscripts submitted for review will not be considered requires reconsideration. Unless the Text Book Committee is prepared to review manuscripts, it may be too much to expect authors and publishers, at any rate in the initial stages, to meet the cost of bringing out their books which may not eventually meet with the approval of the committee.

I shall not take up any more time with my general remarks, but will, now, with your permission proceed with the business on the Agenda paper.

The next item on the Agenda was the consideration of the Secretary's Report. The report had been printed and circulated among the members before hand and it was therefore thought unnecessary to read it again at the meeting.

The President called for remarks if, any, on the Secretary's Report.

Referring to the question of getting up a series of graduated Text Books on Elementary Mathematics in Kannada and Urdu, Mr. M. T. Narayana Iyengar, Chairman of the Mathematics Sub-Committee, read out for the information of the members the correspondence between him and the department on the subject and urged the desirability of the department undertaking the publication of the series.

Mr. Kini drew attention to the unsuitability of the Text Books on Geography now in use and he was informed that the books were under revision.

After some further discussion, the Secretary's Report was adopted.

The reports of the several Sub-Committees were then taken up.

The English Sub-Committee.

Mr. D. Venkataramaiya pointed out that there were no suitable Text Books on translation and that the two manuscripts sent for review were not fit for use.

The President said that the Publication Committee also had recommended this and felt that want of adequate attention to translation was a serious defect in Middle Schools and that drill in translation was necessary.

Mr. D. Venkataramaiya stated that the Sub-Committees should meet twice a year, once to select books for detailed review and a second time to recommend books for the various classes and examinations.

The Sanskrit Sub-Committee.

The President said that Mr. A. R. Krishna Sastry's suggestion to introduce Sanskrit as one of the second languages in Middle Schools had been negatived by the Local Examinations Board.

The History and Geography Sub-Committee.

Mr. K. Srinarasimhaiya pointed out the desirability of having a series of Teachers' Hand-books written up to correspond to the proposed History and Geography Text Books for pupils as there were no books of reference in Kanniada for our teachers.

After much discussion in which several members took part, it was suggested that this proposal might be referred to the Methods of Education Sub-Committee.

This was agreed to by the members and it was resolved that Mr. K. Srinarasimhaiya's proposition relating to the preparation of Teachers' Hand-books be referred to the Methods of Education Sub-Committee.

The second point in the report of the History and Geography Sub-Committee was that the Chairmen might be given definite discretion to offer their own opinion on certain books without referring them to the members of the Committee for regular review.

With regard to this suggestion, the President said that he had empowered the Chairman of each Sub-Committee to reject books if found unsuitable.

The Report of the Kannada Sub-Committee.

Mr. H. K. Veerabasavaiya desired that the report should be fuller.

Mr. S. G. Sastry spoke on the unsuitability of the 'Sachitra Karnataka Balabodhe' as a textbook and he wanted to know how many of the members had reviewed the book and how many were "for" and "against" it.

Mr. B. Venkatesachar and Mr. R. Narasimhachar took objection to the reading of the opinion of individual members.

At the request of the President the Secretary read out the opinion of individual members.

Mr. K. Srinarasimhiya pointed out that it was a dangerous precedent to give opinions to the publishers beforehand. No member of any Sub-Committee should give his opinion to private people on such matters.

The President said that this should be noted.

The Report of the Urdu Sub-Committee.

Mr. M. S. Mohiyuddin, Chairman of the Urdu, Persian and Arabic Sub-Committee pointed out that it was hard to expect private enterprise to come forward and supply Urdu Text Books. He understood that the general policy was to encourage private enterprise, but he wanted that a different policy should be adopted with regard to Urdu Text Books.

The President remarked that since the number of copies of Urdu Text Books required was too small, these should be published departmentally.

The Report of the Science Sub-Committee.

Mr. B. Venkatesachar, Chairman of the Science Sub-Committee made the following suggestion in his Annual Report :—

That the Chairman of the Science Sub-Committee be authorised to return to the Secretary, Text Book Committee, the books sent for review with the names of the members to whom they should be sent for opinion. The Secretary after getting the opinions of two members on each book will send it back to the Chairman for recording his opinion.

The President agreed with Mr. B. Venkatesachar and it was resolved that the Chairman of each Sub-Committee be authorised to return to the Secretary, Text Book Committee, the books sent for review with the names of the members to whom they should be sent for opinion, so that the Secretary after getting the opinion of two members on each book might send it back to the Chairman for recording his opinion.

The Report of the Methods of Education Sub-Committee.

Mr. K. Srinarasimhaiya wanted to know what had been done in the matter of uniform terminology for educational expressions.

The Secretary said that the question was referred to the Inspector of Secondary and Normal Schools and no reply had been received from him yet.

Mr. S. G. Sastry suggested that a member of the Karnataka Sahitya Parishat might be associated with this.

The President said that the suggestion might be noted.

The Report of the Religious and Moral Instruction Sub-Committee.

Referring to the following statement in his report, Mr. D. Venkataramaiya stated that Religious and Moral Instruction had been neglected and requested the Committee to consider whether to retain the subject and make proper arrangements for its teaching, or to do away with it altogether.

In this connection it may be observed that no serious attempt has been made to place religious and moral education in our schools on a sound basis. If the subject is to continue as an integral part of the curricula of studies, the most essential need seems to be the preparation of text books to be used in different classes. No doubt doctrinal differences among the sub-sects of the Hindus render the task of compiling text books on religious instruction in particular somewhat difficult. But the fundamentals of Sanatana Dharma being common to all Hindus it should be possible to present a system of religious teaching in schools acceptable to all communities among the Hindus.

The President said that the question was being examined by the Board of Education and that its report might be awaited.

The Report of the Telugu Sub-Committee.

Mr. T. S. Venkannaiya, Chairman of the Telugu Sub-Committee, suggested the addition of two more members to the Sub-Committee to facilitate the work of reviewing.

The President said that he would do what was necessary.

The Report of the Physical Culture Sub-Committee.

Mr. C. Subba Rao, Chairman of the Physical Culture Sub-Committee, pointed out certain defects in the constitution of the Sub-Committee and suggested that at least a few of the members of the Sub-Committee might be regular members of the Text Book Committee.

The President said that this would be rectified while reconstituting the Text Book Committee.

The Secretary then read the Report of the Publication Committee, appointed by the Text Book Committee last year. The following are the three resolutions passed by that Committee:—

(1) The Committee are of opinion that the writing and publication of text books be left as far as possible to private enterprise, subject to the condition that they conform fully to departmental requirments. To this end it was resolved that a statement of books required to be written in several subjects for different grades of schools be prepared and advertised in the Gazette and that applications from duly qualified persons be invited, each application to be accompanied by a synopsis of the book to be written and a specimen chapter thereof. The applications may then be referred to the Chairman of the Sub-Committee concerned.

(2) In regard to the prescription of alternative text books with Departmental Publications, the Committee regret to note that there are no good books to choose from and that when the publishers are encouraged to bring out books on the lines of the syllabuses published by the Department, the matter may be taken up.

(3) All private publications in use in the various classes of the Primary and Middle Schools and Upper Secondary Classes are not up to the mark and these should be revised as early as possible.

Dr. Chinnappa suggested that the Report with the lists of books might be referred to the Sub-Committees for opinion.

The Report was discussed for more than an hour and finally it was resolved that :—

(1) it be the declared policy of the department to withdraw as far as possible from the work of publication of text-books, (except text-books for Upper Secondary, Upper Secondary Training, Lower Secondary Training Classes and Urdu Text-books) as private enterprise came forward ;

(2) in the light of the change in policy, manuscripts be accepted for review by the TextBook Committee ;

(3) the lists of books prepared by the Publication Committee be referred to each Sub-Committee for opinion.

(4) the members of the Publication Committee be thanked for the labour bestowed on the work and

(5) copies of the Publication Committee's Report be sent to all the members of the Text-Book Committee.

Additional Propositions.

Mr. S. G. Sastry moved that no book be prescribed as a text-book unless it had been circulated among all the members of the Sub-Committee and approved of by a majority of members at one of the formal meetings.

After very careful consideration it was resolved that no book be prescribed as a text-book unless it had been circulated among all the members of the Sub-Committee and approved of by a majority of the members present at one of the formal meetings excepting Urdu Books and books for the Pandit and Upper Secondary Examinations.

2. Mr. M. Venkatasubbaiya brought forward the following proposition :—

"In view of the paucity of suitable text-books in many subjects in Middle and Primary Schools and the unsuitability of others now in use, the Committee recommends that the publication of text-books in all the subjects for use in these schools may be thrown open to competition by publishing firms, the department defining the syllabuses fully to help the firms in bringing out the books required. If there be more than one book in the field on the same subject, suitable for the purpose, alternative text-books may be prescribed."

Mr. M. Venkatasubbaiya withdrew his proposition as the Publication Committee had dealt with the question.

3. Mr. Davud moved :—

(1) That the appointment of the Urdu Proof Reader may be expedited.

The President replied that the matter was before Government.

(2) That the Urdu and Persian Section of the Education Library might be supplied with more books so as to serve the needs of the Sub-Committee.

The Secretary said that Urdu and Persian Books to the value of Rs. 358 had been purchased for the Educational Library and that if any more books were required, a list might be sent early.

(3) That arrangements be made for retail sale of Urdu publications in the Government Central Book Depot, Bangalore.

The President stated that the matter was being investigated.

(4) That Assistant Masters be represented on the enlarged Text Book Committee.

The President said that no resolution was necessary and the needful would be done while reconstituting the Text-Book Committee and its Sub-Committees.

(5) That a list of text-books be circulated among the High School Head Masters before they are finally approved of by the Committee.

After much discussion, the proposition was put to vote and lost.

(6) That it would be better to prescribe Sanskrit Text-Books (at least additional Sanskrit) as are already published without waiting for departmental publications which often come late, or the authorities may kindly see that such publications are out in time.

When the Chairman of the Sanskrit Sub-Committee explained the situation and assured that portions would be reduced, the proposition was withdrawn.

4. Mr. K. N. Kini moved :—

(1) That in the matter of reviewing books, Rule No. XIII be strictly followed, *i.e.*, opinions of 2 members other than the Chairman be taken.

The President agreed to enforce Rule No. XIII strictly in future.

(2) That the present practice of adopting the reports of Chairmen of Sub-Committees as reports of Sub-Committees themselves be done away with and replaced by reports drafted by the Chairmen in consultation with the respective Sub-Committees themselves.

Several members supported the proposition and it was resolved that the reports of the Sub-Committees be passed in circulation or adopted at a formal meeting by the members of the Sub-Committee in July or August each year.

(3) That instead of the two parts of Geography written on concentric system and prescribed for Middle School students, one book be got written giving more details regarding Mysore in particular and surrounding country in general. In writing about Mysore, copious details may be given regarding its commercial, industrial and agricultural activities.

The President said that that question would be referred to the Sub-Committee for consideration.

(4) That a suitable book on Nature Study be published by the Department for the sake of Primary Schools. Attention need be paid to local conditions in the preparation of this book.

The proposition was put to vote and lost.

The following proposition by Mr. T. S. Venkannaiya was withdrawn :—

"That the Secretary, Text-Book Committee, be entrusted with the work of disposing of such books received for review as are not likely to be prescribed as text-books, subject to the approval of the Chairman of the Committee concerned."

The Secretary pointed out the need for the preparation of Text-Books for Rural Primary Schools.

Dr. S. Paul Chinnappa said that that was necessary.

As suggested by Messrs. M. T. Narayana Iyengar, R. Narasimhachar and M. S. Mohiyuddin, it was resolved that Dr. S. Paul Chinnappa be requested to give a note on the subject of separate text-books for Rural Primary Schools.

The President (Mr. K. Matthan) said that that was the last business meeting of that Committee and the Committee was to be reconstituted presently. He thanked the members of the Text Book Committee and Sub-Committees for the labour they had bestowed and for the ungrudging services they had rendered. He hoped that most of the members would be on the new Committee and once again thanked the members for the trouble they had taken.

K. MATTHAN,
President.

During the year, 15 Journals were received for review. Of these, 3 in English, 4 in Urdu, 1 in Sanskrit, and 6 in Kannada have been recommended for use in schools. The number of non-departmental publications approved and prescribed as text-books during the year was 182.

The system of issuing a consolidated notification every quarter recommending or rejecting the books received for review and distributing them among the publishers, authors,

headmasters and headmistresses of schools and Inspecting officers was continued during the year.

The headmasters and headmistresses of all grades of schools have been requested to select books for the school libraries, as far as possible, from these approved lists.

Lists of books reviewed during the year 1925-26 have been distributed among the members for reference.

The three books on History in Kannada, one for the Primary and the other two for middle schools, are nearing completion and may be published in the course of this year. Arrangements for the publication of two similar books in Urdu, one for the primary and the other for the first two classes of the middle schools, should be made as early as possible.

Tarikhe Hindustan, the departmental publication in Indian History, has been revised by Mr. H. Abdul Gaffoor and is being examined by the Urdu, Persian and Arabic Sub-Committee.

Books on training subjects for the revised L. S. T. course are being written and it is expected that they will be ready by the end of this official year.

The Departments of Education in Madras, Bombay and other parts of India only approve books for use in their schools and do not publish text-books departmentally. Cheap prices and timely supply may be made conditions precedent for the prescription of books as text-books. This system of approving books for school use will enable the teachers and Inspecting officers to select only such books as are suited to their local requirements. Then the Text-Book Committee will have to review the books and recommend them for use in particular classes or areas. Such a change in policy will pave the way for the production of best local school literature on the most up-to-date lines. Recently Government have approved the prescription of non-departmental books as alternative text-books with departmental publications only in the case of Primary Schools. The departmental text-books may be prescribed till we get better books on those subjects.

Thirteen propositions were brought up for discussion in the last annual meeting of the Text-Book Committee and six resolutions were passed on all of which, action has been taken. The publication Committee composed of seven members met twice during the year and has considered books and manuscripts relating to the Training, Upper Secondary and Middle School Classes. Their deliberations are not yet concluded.

The preparation of text-books in Science in Kannada and Urdu for the Upper Secondary and L. S. T. classes is referred to the Publication Committee for consideration and needful action. As resolved by the Text-Book Committee last year, copies of the notifications of text-books as approved by the Local Examinations Boards have been distributed among the members already.

The question of getting a series of graduated text-books in Kannada and Urdu on Elementary Mathematics for use in Middle schools is being considered by the Department in consultation with the Chairman of the Mathematics Sub-Committee.

A recommendation has been submitted to Government *re* the appointment of an Urdu Proof Reader, knowing both Kannada and English to help the Secretary, Text-Book Committee, in conducting the work of the Urdu, Arabic and Persian Sub-Committtee. As promised by the President, the Inspecting officers were requested to intimate whether there had been any instances of frequent change of text-books. Almost all the District Inspectors of Education have replied that there has not been any frequent change of text-books.

The question of getting books reviewed by two members as required by Rule XIII of the working of the Text-Book Committee is found to be difficult in practice. Sometimes the Chairman recommends a book on the basis of his own opinion. It is a point for consideration whether the opinion of one member with that of the Chairman, or the opinion of the Chairman alone, may be accepted as sufficient for purposes of review.

For recommending books for use in school libraries, the opinions of any two members with the Chairman's remarks are sufficient (Rule XIII). But in cases where books are to be prescribed for use as text-books, it stands to reason that all the members of the Sub-Committee concerned should review the books with the result that only those books which get the largest number of votes may be recommended for use as text-books.

(1) Selections in Sanskrit Prose and Poetry for High School Classes;
(2) Kannada IV Reader;
(3) Sanskrit Reader; and
(4) Sanskrit Reader II were published during the year.

The selections in Urdu, Prose and Poetry for IV Form, compiled by the Bangalore Section of the Urdu Sub-Committee are being considered by the Mysore Section. The same for V form is being compiled by a Special Committee under the supervision of the Chairman of the Urdu Sub-Committee.

English Sub-Committee.

1. The Chairman of each Sub-Committee is given the discretion to reject books sent for review, if found unsuitable, as recommended by the English Sub-Committee.

Kannada Sub-Committee.

Inspecting officers have been informed that 42 lessons in Parts I and II of departmental Balabodhe may be omitted as suggested by the Kannada and the Girls' Education Sub-Committees.

Tamil Sub-Committee.

In accordance with the suggestion of the Tamil Sub-Committee, books in Tamil, Telugu and Urdu have been received from the various publishers for consideration while prescribing text-books.

Science Sub-Committee.

Revision of the four books { ಸರಳಾರೋಗ್ಯಪಾಠ, ಸರಳವ್ಯವಸಾಯಪಾಠ, ಆರೋಗ್ಯಶಾಸ್ತ್ರ, ವ್ಯವಸಾಯ ಬೋಧಿನಿ } is being considered.

Arrangements to improve the get up of departmental books are made. The Committee will be consulted *re* the improvement of illustrations.

History and Geography.

Arrangements for the revision of Geography, Book II, have been made as recommended by the History and Geography Sub-Committee.

Physical Culture.

Government have been requested to sanction the revival of Physical Education Training Classes during the Summer Vacation.

As recommended by the Physical Culture Sub-Committee, Miss Lazarus is being consulted *re* the preparation of a book on drill for girls.

Methods of Teaching Sub-Committee.

Uniform terminology of Educational terms for Normal Schools is being considered.

On the whole, a large amount of substantial work has been done during the year under report by the Text-Book Committee and its several Sub-Committees.

The Chairmen and the members of all the Sub-Committees have ungrudgingly done the work allotted to them and the thanks of the Department are due to them for their hearty co-operation and prompt despatch of the onerous work undertaken by them in the interests of School Children and the Progress of our Country.

I have the honor to be,
Sir,
Your most obedient servant,
A. N. NARASIMHIA,
Secretary.

APPENDIX B.

Reports of the several Sub-Committees for the year 1925-26.

ENGLISH SUB-COMMITTEE.

FROM

D. VENKATARAMIAH, ESQ., B.A., L.T.,
Chairman, English Sub-Committee,
Bangalore.

To

THE SECRETARY,
The Text-Book Committee,
Bangalore.

SIR,

With reference to your letter No. T. B. C. 1414/18 of 3rd July 1926, I have the honour to submit the following brief report on the working of the English Sub-Committee during the year 1925-26 :—

The Committee met once during the year to select the Text-Books for both the Middle and High Schools, the number of books reviewed being 282. The Text-Books relating to the Middle Schools were mostly reviewed by Messrs. L. Seshagiri Rao and H. P. Krishna Rao, as they were thought most competent for this work, having been in charge of important

Middle Schools in the City, while books in use for High School classes were referred to the other Members of the Committee. It may, in this connection, be mentioned that there was a plentiful supply of the books in English Prose and Poetry from which a proper selection of the books could be made, but there were no good books available on the subject of translation. It is necessary, therefore, that suitable text-books on the subject should be got prepared departmentally.

As regards the Sub-Committee Meetings, I would like to suggest that two meetings be held in the year, the first in June and the second in December. At the preliminary meeting, the Committee may discuss the general principles governing the selection of text-books in the light of experience gained in the previous year, and also consider the suggestions, if any, that may have been received from the Headmasters and the public. At the second meeting, text-books may be selected from among those previously received.

I wish to express my thanks to all the Members of the Committee for their kind co-operation for reviewing books and assisting in the selection of text-books.

I have the honour to be,
Sir,
Your most obedient servant,
D. VENKATARAMIAH,
Chairman, English Sub-Committee.

SANSKRIT SUB-COMMITTEE.

To
THE PRESIDENT,
Text-Book Committee,
Bangalore.

SIR,

I have the honour to report as follows on the working of the Sanskrit Sub-Committee for the year 1925-26 :—

The Committee met twice in the course of the year and prescribed text-books for the various classes and examinations. Six books (including a Journal) received for patronage, were reviewed.

The Committee desire to repeat their recommendation in the matter of introducing Sanskrit again as one of the second languages in the Middle Schools. They are the feeders to the High Schools where, now, Sanskrit finds a place as a second language also.

I have the honor to be,
Sir,
Your most obedient servant,
A. R. KRISHNA SASTRY,
Chairman, Sanskrit Sub-Committee.

MAHARAJA'S COLLEGE,

TAMIL SUB-COMMITTEE.

To
THE SECRETARY,
Text-Book Committee,
Bangalore.

SIR,

With reference to your T. B. C. No. 1414 of 26-6-1926 and T. B. C. 18 of 3/7th of 1926, I have the honour to state that the work turned out by the Tamil Sub-Committee during 1925-26 is as follows :—

1. The Committee met once, *viz.*, on 4th December 1925, to prescribe text-books for the Primary and Middle schools for 1926-27 and 1927-28 and for the High School forms for 1927. The Secretary was requested at this meeting to send for a larger number of books from the publishers so as to help selection from a wider circle of suitable publications.
2. Thirty-one books were received during the year for review, and they were all reviewed and returned to the Education office.

Yours sincerely,
K. A. KRISHNASWAMY IYER,
Chairman, Tamil Sub-Committee.

15, V CROSS ROAD, BASAVANGUDI,
Bangalore, 7th July 1926.

MATHEMATICS SUB-COMMITTEE.

1. The Sub-Committee held a meeting on the 9th January 1926 at 3-30 P.M. The proceedings of the meeting were duly forwarded to the Inspector-General of Education.

2. The Sub-Committee considered the following subjects referred to it by the Secretary :—

(i) Text-books in Mathematics for the S. S. L. C. Examination (31-7-25).

(ii) Manuscripts of Practical Geometry in Kannada (24-10-1925).

(iii) Question of G. C. M. and L. C. M. for Primary classes (5-6-1926).

3. The Sub-Committee recommended that steps should be taken to bring out departmental text-books in (Kannada) Mathematics on the lines of Mac Millan's books, I, II, III in Tamil and Telugu (28-10-1925 and subsequent correspondence).

4. Twenty-four books were reviewed.

MALLESWARAM,
Bangalore, 28th June 1926.

M. T. NARANIENGAR,
Chairman, Mathematics Sub-Committee.

HISTORY AND GEOGRAPHY SUB-COMMITTEE.

The personnel of the Sub-Committee remained the same as last year. The Sub-Committee met on the 5th December 1925 and a copy of proceedings thereof is herewith enclosed.

During the year under report, 82 books were received, from the Secretary, Text-Book Committee, for review, out of which, 64 books were reviewed and returned besides 25 books of last year which were also reviewed and returned during the year. The remaining books are with the members in circulation.

A revision of Geography II was recommended this year. The writing of a series of three books in History for Primary and Middle School classes is nearing completion. It is desirable to have a series of teachers' hand-books written up to correspond to the proposed History and Geography text-books for pupils.

As opined by the English Sub-Committee that the Chairman be given the discretion to select books sent for review if found unsuitable as communicated in Secretary's No. T. B. C. 9, dated 5th July 1926, I think that such a provision is necessary in order to lighten the work of the members, since a review of all books received irrespective of their apparent value regularly in the same manner serves no useful purpose. It may be quoted as an instance that this year some books in higher economics or history which were obviously unnecessary to be reviewed for the purposes of High, Middle or Primary Schools were received. The Chairman might also be given definite discretion to offer his own opinion on certain books without referring them to the members of the Committee for regular review. This applies to such books or appliances like Atlases, Maps, etc.

I request that some clerical allowance may kindly be arranged to be granted for attending to the maintenance of registers and keeping correspondence with the members of the Committee in connection with the review of text-books which are growing in number year by year.

My sincere thanks are due to the members of the Sub-Committee who have ungrudgingly spared time and labour in promptly reviewing all the books sent to them during this year.

K. SRI NARASIMHAIYA,
Chairman.

MALLESWARAM,

URDU, PERSIAN AND ARABIC SUB-COMMITTEE.

To

K. MATTHAN, ESQ., B.A.

SIR,

I have the honor to submit herewith the report on the work of the Urdu, Persian and Arabic Sub-Committee for the year 1925-26.

Meetings.—One meeting of the Sub-Committee was held during the year, with two sittings on consecutive days, when text-books in Urdu, Persian and Arabic languages were prescribed for the Primary, Middle School, High School, Upper Secondary and Moulvi classes, as well as text-books in non-language subjects for the Primary, Middle and Upper Secondary courses.

Personnel.—The 'Personnel' of the Sub-Committee remained unchanged during the year. The need of splitting up the Sub-Committee into minor subject committees to ensure

a speedier transaction of the business with the consequent enlargement of the Sub-Committee, as proposed in the last year's report is becoming insistent.

Books Reviewed.—Twenty books were reviewed and such of them as were considered suitable for the different classes were noted down for further consideration with a view to select the most suitable books for being prescribed. As a large number of books on all subjects and of varying merit are being received, the vesting of power in the Chairman to reject books which are obviously unsuitable would conduce to economy of time and labour.

Publication Work.—The revision of the text-book in History for Middle Schools, the need of which was pressed in the last year's report, has been, as per orders of the Inspector-General of Education, taken in hand and it is nearing completion. The compilation of suitable selections in Prose and Poetry to be published by the department and prescribed as text-book in Urdu for the IV form which was entrusted to a Special Committee is complete and will be shortly ready in its final form for publication. Another Committee recently appointed by the Inspector-General for a similar compilation for the V form will start its work immediately.

The Sub-Committee at its last meeting recommended that the departmental book in Agriculture (Nisab-e-Filahath) should be replaced, as it had been found by experience to be unsuitable, and the matter is under the consideration of the department. The addition of a chapter on "First Aid" to the book on Hygiene (Rahnuma-e-Sayhat) has also been recommended.

The deficiency in the provision of suitable text-books in Urdu in the non-language subjects for the various classes is great and operates as a serious handicap on Urdu students. The few departmental text-books at present in use have lagged far behind present requirements in regard to curricula and educational technique and in view of the comparatively small school population to whose needs Urdu books have to cater, it is hard to expect private enterprise to come forward and supply the need. Arrangement will have to be made by the department to get suitable books ready and it is submitted that this is a matter which cannot be any longer delayed in the interest of Urdu Education which already suffers from disadvantages of other kinds.

Conclusion.—In conclusion, I beg to acknowledge gratefully the hearty co-operation of my colleagues on the Committee and to record my appreciation of their readiness to shoulder the various responsibilities which the membership of the Committee involves.

I have the honor to be,
Sir,
Your most obedient servant,
M. S. MOHIYUDDIN,
Chairman, Urdu, Persian and Arabic Sub-Committee, Mysore.

MYSORE,
20th July 1926.

SCIENCE SUB-COMMITTEE.

1. A meeting of the Committee was held in the office of the Inspector-General of Education on Wednesday the 2nd December 1925, for prescribing text-books to the various classes and considering subjects connected with the revision of the departmental text-books on Hygiene and Agriculture and the improvement of the get up of Science books in general. A copy of the Proceedings is appended.

2. Of the 42 manuscripts and books received for review, 13 books have been reviewed and the manuscripts have all been returned to the authors as it has been resolved by the Text Book Committee that it cannot undertake the reviewing of manuscripts.

3. The undersigned desires to make the following suggestions :—

That the Chairman of the Science Sub-Committee be authorised to return to the Secretary, Text Book Committee, the books sent for review with the names of the members to whom they should be sent for opinion. The Secretary after getting the opinions of two members on each book will send it back to the Chairman for recording his opinion.

(RELIGIOUS AND MORAL INSTRUCTION SUB-COMMITTEE.)

FROM

THE CHAIRMAN,
Religious and Moral Instruction
Sub-Committee, Bangalore.

TO

THE SECRETARY,
Text-Book Committee,
Bangalore.

SIR,

With reference to your letter No. 1414—T. B. C. of 25-26, dated the 3rd July 1926, I have the honor to forward herewith a brief report on the working of the Religious and Moral Instruction Sub-Committee during 1925-26.

The Committee met only once and after having explained the suitability of the existing text-books on religious and moral education, recommended the preparation of proper text-books for the different grades of schools. The number of books that came up for review during the year was six and the number reviewed was three.

In this connection it may be observed that no serious attempt has been made to place religious and moral education in our schools on a sound basis. If the subject is to continue as an integral part of the curricula of studies, the most essential need seems to be the preparation of text-books to be used in different classes. No doubt, doctrinal differences among the sub-sects of the Hindus render the task of compiling text-books on religious instruction in particular somewhat difficult. But the fundamentals of Sanatana Dharma being common to all Hindus, it should be possible to present a system of religious teaching in schools acceptable to all communities among the Hindus.

The subject is a delicate one, however, and requires careful handling. It is nearly two decades since the subject found a place in our school studies and it is time that we decide either to retain the subject and make proper arrangements for its teaching or drop it altogether.

I have the honor to be,
Sir,
Your most obedient servant,
D. VENKATRAMIAH,
Chairman.

BASAVANGUDI,
Bangalore, 10th July 1926.

(TELUGU SUB-COMMITTEE.)

TO

THE PRESIDENT,
Text-Book Committee,
Bangalore.

SIR,

I have the honor to submit herewith my report on the working of the Telugu Sub-Committee for the year 1925-26. Mr. B. Krishnappa was the Chairman of the Sub-Committee till April. As his eyes were unfortunately affected unexpectedly, he had to give up the Chairmanship and I was asked to take up the work.

Of 98 books received for review, 96 were reviewed. The rest are being reviewed by the members.

I may be permitted to suggest that the addition of two more members to the Sub-Committee will facilitate the work of reviewing, since the number of books received for review are more in number than can be easily managed by the present Sub-Committee.

I sincerely thank my colleagues on the Sub-Committee for their willing co-operation in the performance of the onerous but honorary work entrusted to them.

I have the honor to be,
Sir,
Your most obedient servant,
T. S. VENKANNAIYA,
Chairman.

TO

THE PRESIDENT,
Text-Book Committee,

SIR,

I have the honor to submit the following annual report of the Girls' Education Sub-Committee for 1925-26:—

The Committee met only once in the year on 1st December 1925 and even then 8 members out of 15 were absent.

Some of the useful subjects discussed at the meeting were :—

1. Omission of certain portions for Primary classes.
2. Change of some text-books.
3. Allotment of more time for music.

The members should take more interest and bring up more subjects for discussion and meet at least once in a quarter.

Only one book was reviewed during the year.

I have the honor to be,
Sir,
Your most obedient servant,
SRIRANGAMMA,
President, Girls' Education Sub-Committee,
Bangalore.

INSPECTRESS' OFFICE,
Dated 19th July 1926.

(PHYSICAL EDUCATION SUB-COMMITTEE.)

Only one meeting of the Physical Culture Sub-Committee was held after it had been adjourned once for want of quorum. At the adjourned meeting, only one member attended besides the Chairman and the Secretary. It is to be observed that attendance at the meetings of this Sub-Committee have always been meagre.

At the meeting, text-books for the year 1926-27 were prescribed and two recommendations were made (1) to revive the Summer Physical Education Class and (2) to get a suitable drill book written for Girls' Schools.

Several books were reviewed by the members of the Sub-Committee.

This Sub-Committee is so constituted that the Chairman and most of the members are not regular members of the Text-Book Committee and they have no knowledge or information of what takes place at the general annual meetings of the Text-Book Committee. It is considered desirable to reconstitute the Sub-Committee so that it consists mostly of regular members of the Text-Book Committee—not co-opted members, who evince very little interest in its proceedings, if they are not already officials in Government Service.

TO

K. MATTHAN, ESQ., B.A.,
President, Text-book Committee,
Bangalore.

SIR,

I have the honor to submit herewith my report on the work of the Publication Committee, appointed by the Text-Book Committee, at the last annual meeting to consider (1) how best to secure suitable text-books for our schools and (2) what books are necessary for departmental purposes.

(1) The Committee are of opinion that the writing and publication of text-books be left as far as possible to private enterpfise, subject to the condition that they conform fully to departmental requirements. To this end it was resolved that a statement of books required to be written in several subjects for different grades of schools be prepared and advertised in the *Gazette* and that applications from duly qualified persons be invited, each application to be accompanied by a synopsis of the book to be written and a specimen chapter thereof. The applications may then be referred to the Chairman of the Sub-Committee concerned.

(2) In regard to the prescription of alternative text-books with departmental publications, the Committee regret to note that there are no good books to choose from and that when the publishers are encouraged to bring out books on the lines of the syllabuses published by the department, the matter may be taken up.

(3) All private publications in use in the various classes of the Primary and Middle Schools and Upper Secondary Classes are not up to the mark and these should be revised as early as possible.

The statements enclosed herewith show the names of (A) existing books to be retained, B) existing books to be revised and (C) new books to be written.

The Proceedings of the four Meetings of the Committee are herewith submitted for kind perusal.

The thanks of the department are due to the members for their kind co-operation and valuable suggestions.

1. Mr. M. S. Mohiyuddin, M.A., LL.B., M.Ed.
2. „ B. Puttaiya, B.A.,
Mr. Puttaiya wrote a letter intimating his inability to attend the meeting.

The proceedings of the last meeting were read and confirmed with slight modifications.

The text-books required for use in Middle Schools were taken up for consideration one by one.

The Text-books in English.—The Committee was of opinion that the language of the Englishman was more suitable so far as language went, but the Indian matter was not presented in its proper perspective. Though it was desirable to get books written by an Indian on Indian subjects, yet the Committee felt that the language point of view was so

important that a choice had to be made from among the books written by Englishmen. It was resolved that as far as possible books of desirable Indian content should always be preferred.

Text-books on Translation.—The Committee resolved that as there were no good books available, the publication of a graded series of new books be got written by a competent person or persons.

Kannada Readers.—The Committee was of opinion that there were no suitable readers in Kannada for the first, second and third year classes of the Middle Schools, that a graded series of readers suited to the pupil's standard in content, language and method of presentation should be got newly written, that the two books reported to be under publication (IV and V Readers) may be carefully examined from the view point of getting a graded series and that each reader should contain poetical as well as prose passages.

Grammar in Kannada.—It was resolved that Sabadarsa, Hosagannada Vyakarnam and Vachakabodini, the three departmental publications on Grammar be published with revision so as to take them simpler and to include hints for teachers.

Composition in Kannada.—The Committee unanimously resolved that new books be published on composition with hints for teachers.

Elementary Mathematics.—In view of the resolution passed by the L. E. Board that pupils be taught Elementary Mathematics through the Medium of the vernacular and also examined therein in Kannada, the Committee resolved that a graded series of text-books in Mathematics be brought out in Kannada and Urdu with hints for teachers (*Vide* file on this subject).

Geography.—The Committee resolved that a new book in Geography be made available for the third and fourth year classes of Middle Schools with hints for teachers.

Further, it was resolved that a good Kannada Atlas be published for the use of Middle School classes.

Text-books in Agriculture.—The Committee resolved that text-book in agriculture be revised with suitable hints for the guidance of teachers.

Elementary Science.—It was resolved that a new book on Elementary Science be published with hints for teachers in the light of the Government Order received in August last.

Books of Music.—The Committee resolved that a new book on Music be brought out.

Book on Needle-work.—The Committee resolved that a new book on needle-work be made available with hints for teachers.

Moral and Religious Instruction.—The Committee resolved that a new series of books be published on the lines suggested by the Religious and Moral Instruction Sub-Committee.

The meeting was adjourned to be held on some date between the 20th and the 25th May 1926 to be fixed by the Convenor.

No. P. 32-3-26-7, dated 21st June 1927.

Review of the work turned out by the Subordinate Civil Courts in the State during the quarter ending March 1927.

PART I.

1. NUMBER OF COURTS.

There was no change in the respective number of courts exercising appellate and original jurisdiction, *viz.*, 6 and 30 including the Additional Subordinate Judge's Court at Mysore and the two Additional Munsiffs' Courts at Mysore and Bangalore.

2. APPELLATE WORK.

(*a*) *District Judges* (3)—The disposals of Regular and Miscellaneous Appeals taken together were better (being 118 against 57) than those in the previous quarter in which Dasara and Christmas holidays intervened. The pendency however rose from 732 to 799 owing to increased institutions (231 against 159).

(*b*) *Subordinate Judges* (3 *including the Additional Sub-Judge at Mysore and excluding the Sub-Judge at Bangalore*).—There was an increase in disposals (106 against 56) with a decrease in pendency (221 against 286.)

3. ORIGINAL WORK.

(a) *District Judges' Courts* (3).—The disposals were 14 against 8 and the pending number was 132 against 126.

(b) *Subordinate Judge's Courts* (4 *including the Additional Sub-court at Mysore*).—The fluctuation in the disposal of original suits (63 against 60) was very slight, as also in the number pending (479 against 475).

The disposals of small cause suits rose from 1222 to 1344 and the pending file was 2013 against 2032.

(c) *Munsiffs' Courts* (23 *including two additional courts*).—Notwithstanding an increase in disposals of Original and Small Cause suits (4330 and 4590 against 3776 and 4003 respectively), the pendency increased (9816 and 3779 against 9752 and 3659) due to an increase in institutions (4395 and 4712 against 3827 and 3800).

The number of original and Small Cause Suits pending over a year is on the increase on the whole (3246 and 375 against 3202 and 281), to which the attention of the courts concerned is drawn with a view to an early reduction.

Properties of Triangles and Circles:

Rectangles in connection with Circles.

If two chords of a circle cut at a point within it, the rectangles contained by their segments are equal.

If two chords of a circle, when produced cut at a point outside it, the rectangles contained by their segments are equal. And each rectangle is equal to the square on the tangent from the point of intersection.

If from a point outside a circle two straight lines are drawn, one of which cuts the circles, and the other meets it, and if the rectangle contained by the whole line which cuts the circle, and the part of it outside the circle is equal to the square on the line which meets the circle, then the line which meets the circle is a tangent to it.

If the vertical angle of a triangle is bisected internally by a straight line which cuts the base, the rectangle contained by the sides of the triangle is equal to the rectangle contianed by the segments of the base, together with the square on the straight line which bisects the angle.

If from the verticle angle of a triangle a straight line is drawn perpendicular to the base the rectangle contained by the sides of the triangle is equal to the rectangle contained by the perpendicular and the diameter of the circumcircle.

The rectangle contained by the diagonals of a quadrilateral inscribed in a circle is equal to the sum of the two rectangles contained by its opposite sides.

The Nine-Points Circle. Lessons.

The three medians of a triangle meet in a point, and this point is a point of trisection of each median, and also of the line joining the circumcentre to the orthocentre.

The perpendiculars from the vertices of a triangle on the opposite sides meet in a point, and the distance of each vertex from the orthocentre is twice the perpendicular distance of the circumcentre from the side opposite to that vertex.

The circle through the middle points of the sides of a triangle passes also through the feet of the perpendiculars of the triangle and through the middle points of the three lines joining the orthocentre to the vertices of the triangle.

If a perpendicular drawn from the vertex to the base of a triangle is produced to meet the circumcircle, then the distance of this point of intersection from the base is equal to the distance of the orthocentre of the triangle from the base.

Properties of Triangles and Circles:

Rectangles in connection with Circles:

If two chords of a circle cut at a point within it, the rectangles contained by their segments are equal.

If two chords of a circle, when produced cut at a point outside it, the rectangles contained by their segments are equal. And each rectangle is equal to the square on the tangent from the point of intersection.

If from a point outside a circle two straight lines are drawn, one of which cuts the circle, and the other meets it; and if the rectangle contained by the whole line which cuts the circle, and the part of it outside the circle is equal to the square on the line which meets the circle, then the line which meets the circle is a tangent to it.

If the vertical angle of a triangle is bisected internally by a straight line which cuts the base, the rectangle contained by the sides of the triangle is equal to the rectangle contianed by the segments of the base, together with the square on the straight line which bisects the angle.

If from the verticle angle of a triangle a straight line is drawn perpendicular to the base the rectangle contained by the sides of the triangle is equal to the rectangle contained by the perpendicular and the diameter of the circumcircle.

The rectangle contained by the diagonals of a quadrilateral inscribed in a circle is equal to the sum of the two rectangles contained by its opposite sides.

The Nine-Points Circle. Lessons.

The three medians of a triangle meet in a point, and this point is a point of trisection of each median, and also of the line joining the circumcentre to the orthocentre.

The perpendiculars from the vertices of a triangle on the opposite sides meet in a point, and the distance of each vertex from the orthocentre is twice the perpendicular distance of the circumcentre from the side opposite to that vertex.

The circle through the middle points of the sides of a triangle passes also through the feet of the perpendiculars of the triangle and through the middle points of the three lines joining the orthocentre to the vertices of the triangle.

If a perpendicular drawn from the vertex to the base of a triangle is produced to meet the circumcircle, then the distance of this point of intersection from the base is equal to the distance of the orthocentre of the triangle from the base.

ARTICLE 513 A.

Substitute the following for the existing appendix:—

Rules for the Commutation of Pensions as revised by Government Order No. Fl. 71-120—S. & A. 1-27-1, dated 4th July 1927.

---

1. Subject to the conditions stated in those rules, Government may sanction the commutation for a lumpsum payment of a portion not exceeding one-fourth of a pension which has been or is about to be granted to any person.

2. The privilege of commutation will not be permitted in the case of pensions not exceeding Rs. 10 per mensem. It is also restricted *for the present* to those whose pensions do not exceed Rs. 100 a month.

3. Sanctions to commutation of pensions are subject to the rule that the expenditure can be met from sanctioned budget grants.

4. The payment of capitalized sum must be taken from a Treasury in the State. The commuted amount is payable at the Treasury at which the pension is being or is to be drawn.

5. Application for commutation shall be made in Form "A" appended to these rules and shall be addressed to the Financial Secretary to Government.

6. The applicant for commutation should satisfy Government:—

(i) That the commutation will be to the distinct and permanent advantage of himself or his family.

(ii) That the residue of pension which will be left after commutation will be sufficient to maintain him in accordance with his station in life in retirement, due regard being had to the manner of application of the amount realized on commutation.

Government may also, at its discretion, require guarantees and impose such terms and safeguards as it may deem fit to ensure the prudent application of the amount payable in commutation, if sanctioned.

7. If on consideration of the facts stated in the application Government decides to allow commutation, the pensioner shall produce a certificate as to his expectation of life signed by the Officer in Medical charge of the District in which he is drawing his pension. A lady applicant should produce a certificate signed by the Lady Surgeon or the Assistant Surgeon attached to any Government Medical Institution in the State. Medical examination will be conducted as in the case of proposals for the State Life Insurance. Government may further, at its discretion, require a second medical opinion or direct the applicant to appear before a Medical Board.

8. The opinion of the Senior Surgeon will be obtained on each medical certificate. The examining medical officer will send his report in Form B herein prescribed in a sealed cover to the Senior Surgeon who will transmit it with his own opinion thereon to the Comptroller for being dealt with under rule 11.

9. In the case of a person drawing an invalid pension, a certificate from a Medical Board will be insisted on. The grounds of invaliding or the statement of the pensioner's medical case should be communicated by the applicant to the certifying medical authority, who will also be furnished by the Comptroller with the medical certificate produced with the connected pension papers.

10. The applicant should himself pay the Medical Officer's fee for examination except when a second medical opinion is required or the applicant is directed to appear before a Medical Board, in which case the examination will be made free of charge by medical officers under the orders of Government.

11. The lumpsum payable on commutation will be the amount certified by the Comptroller to be admissible according to the table of present values given in the be appendix to these rules. The commutation allowable will sanctioned by Government on receipt of the Comptroller's certificate. For the purpose of this rule the age of the pensioner shall be assumed to be such age, not being less than his actual age, as the certifying medical authority or the Senior Surgeon may advise.

12. Commutation, when sanctioned, shall take effect from a date, to be named in the order which should ordinarily be about one month later than the date of the order, and all calculations shall be made with reference to that date. Payment of the commuted portion of pension will cease from the date specified and the sum payable on commutation will be paid on that date or as soon afterwards as possible.

13. A commutation once applied for, sanctioned and given effect to, cannot be rescinded, *i.e.*, the portion of a pension commuted cannot be restored on refund of its capitalized value.

14. If a pensioner, whose pension has been commuted, dies before receiving the commutation value, this value is payable to his heirs.

15. In the case of a pensioner who is re-employed in Government service or in the service of a Local Fund and who commutes a portion of his pension before or after such re-employment, his pension for purposes of the rules in Chapter XX, Mysore Service Regulations, shall be taken at the full amount which he might have drawn if he had not commuted a portion of it.

B. SREENIVASA IYENGAR,
Financial Secretary to Government.

Subject—Regarding collections towards His Highness the Maharaja's Silver Jubilee Fund.

COMPTROLLER'S OFFICE, BANGALORE.

Circular No. 99f *dated* 18*th July* 1927.

To—All Deputy Commissioners and Treasury Officers.

Instances have come to the notice of the undersigned in which collections remitted to the Treasuries on account of H. H. the Maharaja's Silver Jubilee Fund have been kept in the Savings Bank account in the name of the Local Committee or remitted to the District Committee or the Mysore Bank by means of Remittance Transfer Receipt. Such procedure is not in conformity with that prescribed in this Office Circular No. 99—T. A. D. B., dated 18th May 1927 *viz.*, to credit all collections to the account head "19. Other Deposits, His Highness the Maharaja's Silver Jubilee Fund", and to send weekly statements of credits to this office; on receipt of which this office would make payment of the total collections to the Bank of Mysore. Such procedure at variance with the instructions issued by this office should not have been issued by certain Deputy Commissioners who have done so and should not have been adopted by treasury officers. Treasury Officers are therefore informed that they should follow strictly the instructions issued by this office and not make payments by means of Remittance Transfer Receipts or keep the collections in the Mysore Bank or outside the accounts and should invariably credit them to the head indicated as per Circular instructions of this office. They should also send the weekly statements with the challans to this office with the greatest promptitude.
